Re: Ground Water Permit No. G2-28335

Dear Sir or Madame:

Your application has been approved and a permit will be issued in accordance with the enclosed Report of Examination upon payment of the statutory fee of \$20.00. Please make your check payable to the Department of Ecology.

This letter and enclosed Report of Examination constitutes our determination and order. Chapter 43.21B RCW provides that any person who feels aggrieved by such an order may submit an appeal to the Pollution Control Hearings Board of Washington, with a copy to the Director of the Department of Ecology, within 30 days from receipt of this order. Procedures for requesting a hearing may be obtained from this department.

Please send your permit fee within 30 days from the date of this letter.

Sincerely,

Gale Blomstrom  
Water Resources Supervisor

Re: Ground Water Application No. G 2-28335

Dear Sir or Madame:

Your application for the appropriation of water has been assigned the above-referenced number. Please refer to this number in future correspondence.

Enclosed is a notice of your application which must be published once a week for two consecutive weeks in a qualified legal newspaper of general circulation in Pierce County. A list of these newspapers in your county is enclosed. The applicant is responsible for the payment of the publication. Please read the notice carefully to make sure it is correct. Should you find an error, please return the amended notice to our office for correction.

You should mail or deliver the enclosed notice to a newspaper regarding publication as soon as possible. When you receive the affidavit of publication with the news clipping from the newspaper, please forward the original to this office promptly.

Since your application is for service of more than one residence, it is considered a public water supply. Public water supply systems are required to be approved by either the local health department or the Department of Social and Health Services (DSHS), depending upon system size. If you have not already done so, I suggest that you contact your local health department or DSHS, Water Supply and Waste Section, Mail Stop LD-11, Olympia, Washington 98504, for further information.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,

  
Sheri Fox
